You are a Student Now

I am a student of Pridnestrovian state medical college and I'm very proud to be a student of this college. Today, our Medical College is one of the most prestigious and reliable institutions in the PMR. Thousands of young people can get decent education in healthcare area at this college.

College life is a thing which you can hardly forget. This is the time when you become an adult, a more sensible person with the sober views on life.

First of all, to pass entrance exams and enter the college is a real challenge for a young person. It takes a lot of time, knowledge, patience and nerves. A student ought to get accustomed to a new timetable, new subjects which are much more complicated than at school. Very often it is difficult to cope with the work load of college or university.

You have to be a serious, attentive and responsible person concentrated on studying. Some new students soon understand that studying at college is hard work which takes a lot of time and strength, so they immediately start missing classes. This is not so good for them, because it is so difficult to catch up with the programme later. Besides, such students usually have a great number of debts before the beginning of examination session.

Another point is the relationships within a group and between students and teachers. It is not a secret that relationships play an important role in student's life. You spend a lot of time at your college communicating with your group mates and trying to make a contact with other students. It is wonderful if you find a like-minded

person who can become a real friend for all 3 or 4 years of studying or you just meet interesting people who are easy in communication.

Sometimes an opposite thing may happen. When you see your groupmates for the first time, it may seem to you that they have nothing in common with you. Then the atmosphere within the group can become unbearable. Things get worse and it becomes difficult to find even a topic for conversation. Different things happen during your college life. Anyway, it is extremely important to have good relationships with your groupmates and teachers and to show the best qualities and features of character.

Today, the college provides training in such specialties as, midwifery, pharmacy, nurses, laboratory diagnosis, and some other branches.

2. Ответьте на вопросы по содержанию текста.

1. Where do you study?
2. Why is College life a thing which you can hardly forget?
